- **We're an ISO (independent sales organization) focusing on serving underprivileged communities with free or low-cost solutions in the telecom sector.**

- **SafeLink is the #1 Lifeline Program in the country!**
- **Through the US Government's LifeLine program, we are able to provide free phones with free service to qualifying applicants.**

SAFELINK WIRELESS® is a program provided by TracFone Wireless, Inc. serving eligible households. To participate in the SAFELINK WIRELESS® service, certain eligibility requirements must be met, which are set by each State where the service is provided. These requirements are based on a person's participation in state, Federal support programs, or by meeting the Income Poverty Guidelines as defined by the U.S. Government. SAFELINK WIRELESS® service is limited to one person per household.

TracFone Wireless is the largest "No-Contract" cellular service provider in the U.S. with over 20 million subscribers. It is also a subsidiary of América Móvil S.A.B. de C.V. ('AMX') (BMV: AMX; NYSE: AMX; Nasdaq: AMOV; LATIBEX: XAMXL), the 9th largest phone company in the world, as well as in all of the Americas, with more than 250 million wireless subscribers.

At TracFone Wireless, our formula to success is simple – exclusively focusing on prepaid cell phones and service. Unlike some prepaid providers, we do not require customers to enter into a service contract. Our customers enjoy the freedom we offer – No Bills, No Contracts, No Surprises – they are in control. Prepaid is all we do, and we have over 20 million subscribers because we do it better than anyone else.

We believe that cell phone ownership is not only a right, but also an important tool for individual success in today's world. Everyone should have a cell phone and the ability to know what their cell phone service will cost, without paying more than they want or can afford. At TracFone, we allow our customers to maintain a cell phone for as low as possible, and we never charge extra fees to activate cell service.

Lifeline

Lifeline is a federal program dedicated to making phone and internet service more affordable for low-income households. This benefit provides eligible consumers with a monthly discount of up to \$9.25.

Consumers living on Tribal lands are eligible for an enhanced discount of up to \$34.25 per month.

USAC's Lifeline Support Center helps you apply for the program, understand eligibility requirements, and keep your benefit current through an annual recertification process.

Lifeline consumers must apply for Lifeline and then sign up with a participating phone or internet company, recertify annually, and keep their information up to date.

Phone or Internet company enrolls you in the Lifeline program, manages your service, and answers questions about your service, phone or device, or bill.

Prove your eligibility

Lifeline is only available to subscribers who can prove their eligibility. When you apply for Lifeline, you must show proof of participation in a qualifying program or proof of income.

Recertify every year

Every year, USAC will check to confirm you still qualify. If we cannot confirm you qualify, you will receive a letter in the mail and may also receive reminders by mail or pre-recorded messages on your phone. If you are asked to recertify, you must do so within 60 days, or you will lose your Lifeline benefit.

Keep your company up-to-date

If you change your address, no longer qualify for Lifeline notify your company within 30 days.

One discount per household

Only one discount is allowed per household. A "household" is a group of people who live together and share income and expenses.

Use it or lose it

If your Lifeline service is free, you must use it at least once every 30 days to maintain your service. If you don't, you will get a 15-day notice to use it or it will get turned off.

Be honest

It is against the law to lie on any Lifeline-related forms or questionnaires.
